

TM PRESTON TRAIL CHAPTER
TEXAS SOCIETY OF
PROFESSIONAL ENGINEERS

The mission of TSPE is to promote and enhance the profession and licensed practice of engineering

TSPE Preston Trail Membership & Involvement Benefits

Champion

Promoting the Importance of Licensure

TSPE's integrated network of state and national advocates continues to champion the PE license by promoting the importance of licensure and proactively defeating threats to it. Be an active advocate for your profession and license!

Advance

Providing Quality Professional Education and Leadership Programs to the PE

Leverage numerous education and leadership development opportunities provided through NSPE, TSPE, and the Preston Trail Chapter which are exclusive to members.

Guide

Voice to the Practice of Ethical Engineering

TSPE gives voice to the practice of ethical engineering and serves as the profession's most respected ethics authority, standing alongside you in commitment to professionalism and the highest quality of work.

Unite

Positive Publicity and Recognitions of the PE

Network with fellow PEs locally, statewide, and across the country through involvement in programs like MATHCOUNTS, Engineers Week, and Professional Engineers Day.

Become a Preston Trail Member Today!

Membership Applications are Available at Preston Trail Monthly Luncheons or Online at:

Membership Spotlight

"Membership in the Preston Trail Chapter of TSPE afforded me the opportunity to lead committees and serve in various chapter leadership positions. No doubt these positions enhanced my leadership skills including running effective meetings, public speaking and influencing. Chapter, state and national involvement allowed me to practice my leadership and business skills which I leverage daily for success on the job."

Trish Hatley, P.E.
Principal / Vice President
Freese and Nichols, Inc.

"The value I have received from being a member of this TSPE chapter and serving on the board goes beyond the personal relationships with the members and other fellow board members. I have a more professional career outlook and have built-up my confidence with public speaking and my engineering knowledge through the interesting topics presented."

Jason Conklin, P.E.
Structural/Forensic PE
Lighthouse Engineering

"TSPE has provided me a greater understanding of the importance of the Professional Engineering License and how it helps protect the health, safety and welfare of the public along with what the society is doing for engineers to help protect the Licensure."

Jeremy White, P.E.
Civil Engineer
City of Rockwall

"My membership with the Preston Trail Chapter extends much further than the tangible benefits of networking, learning, and supporting the licensed engineering profession. I truly believe the relationships and leadership opportunities that have been made available to me as a member have had an enormous impact on my professional growth and leadership skills."

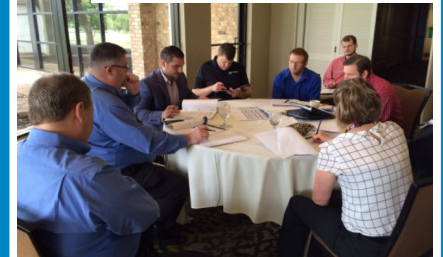

Nick Ataie, P.E.
Engineering CIP Manager
City of McKinney

"Since becoming a member of TSPE, the biggest value add for me has been the relationships I have developed and continue to develop as I grow in my professional career. To me TSPE has been about building a community with likeminded individuals outside of the workplace, and what better place to be than a community for engineers!"

Priya Mistry, P.E.
Project Engineer
Cobb Fendley
